

Inter-Device Connection Service User Guide

User Guide for using the IDCS Service

The following is a brief summary of the step required in order to set-up the IDCS service:

- 1. Login to IDCS website.**
- 2. Create user and new devices, please also set a valid mail account.**
- 3. Receive registration mail.**
- 4. The mail will indicate Device Password, which is to be used in the iView Developer Software.**

The device registration email you will receive, looks like this. You will need to input this information into the iView Developer Software to proceed

IDCS New Device Registration Inbox x

idcs@idcs4iot.net

to automation ▾

IMO_UK has new device

Account Name: IMO_UK

Device Name: Automation

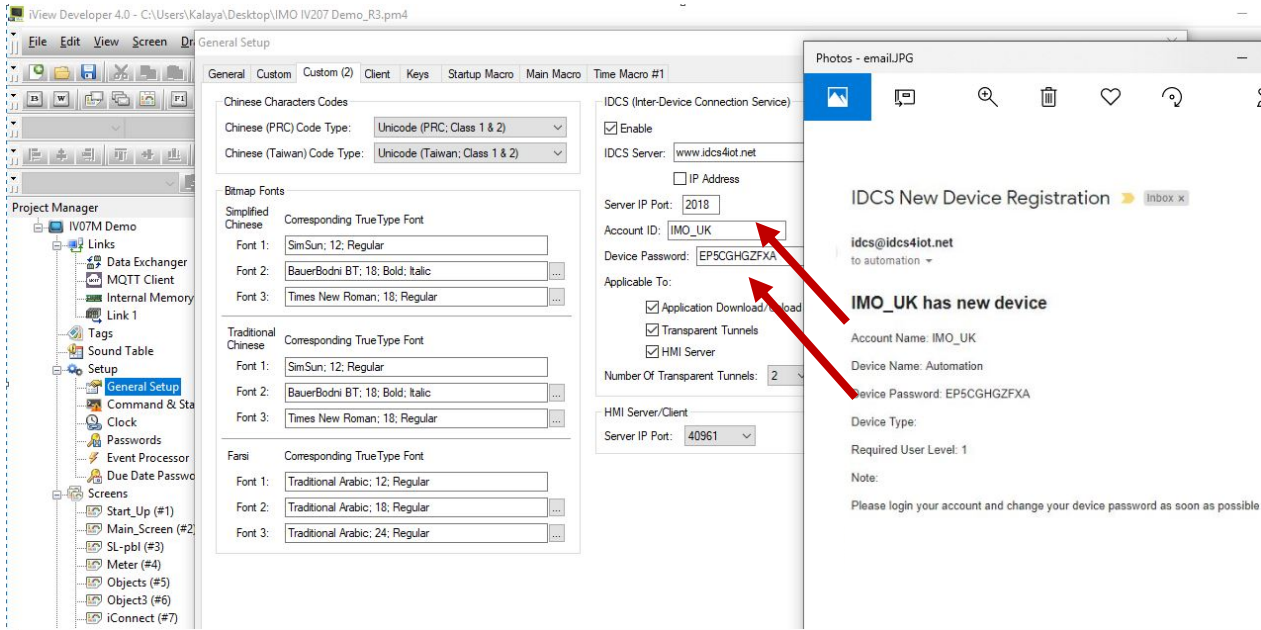

Device Password: EP5CGHGZFXA

Device Type:

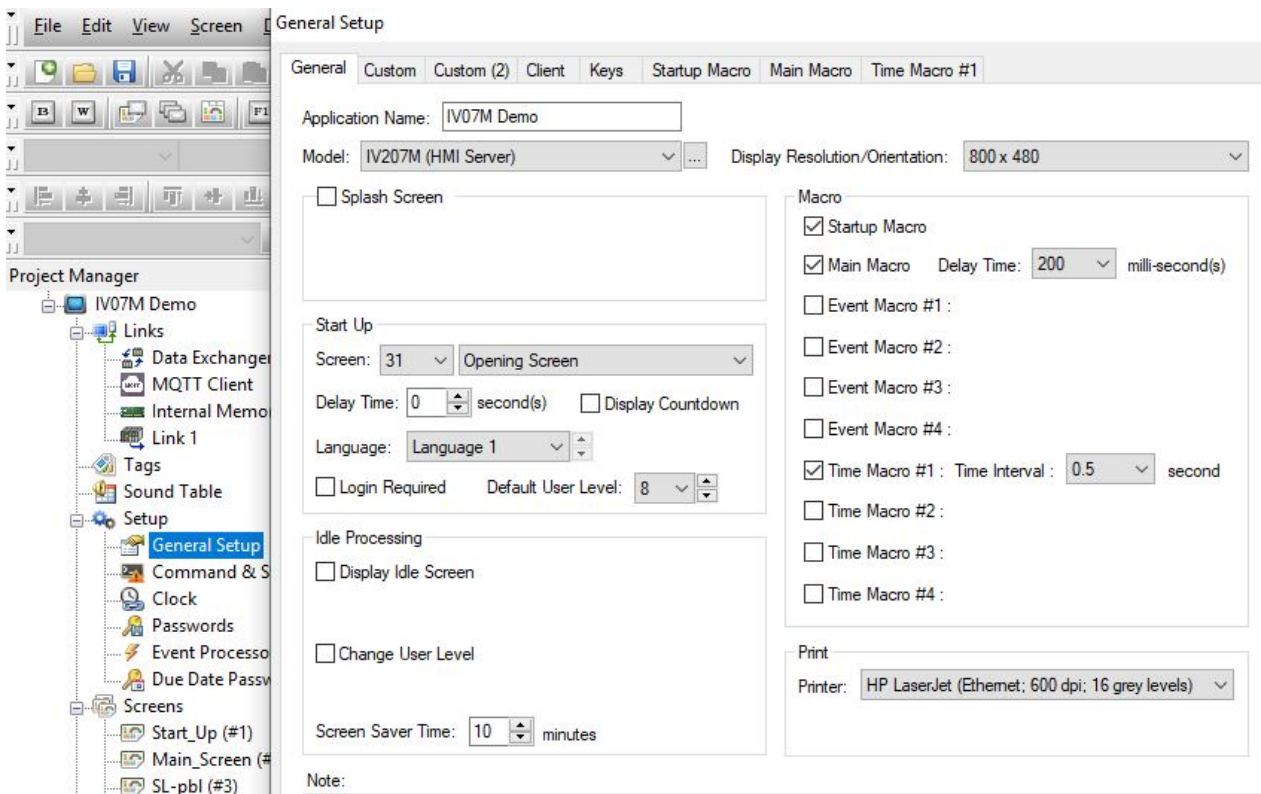

Required User Level: 1

Note:

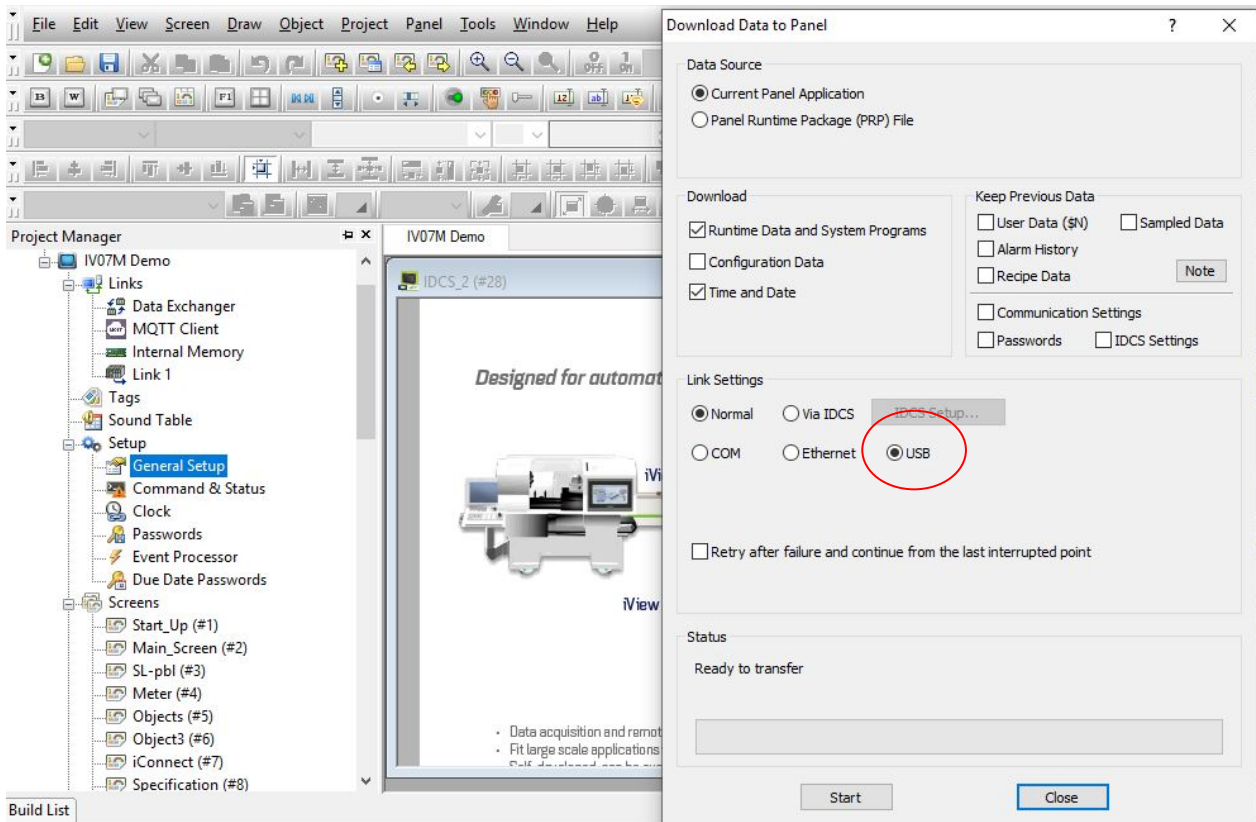

Please login your account and change your device password as soon as possible

The panel model must be chosen to “hmi server/client” model, such as following picture.

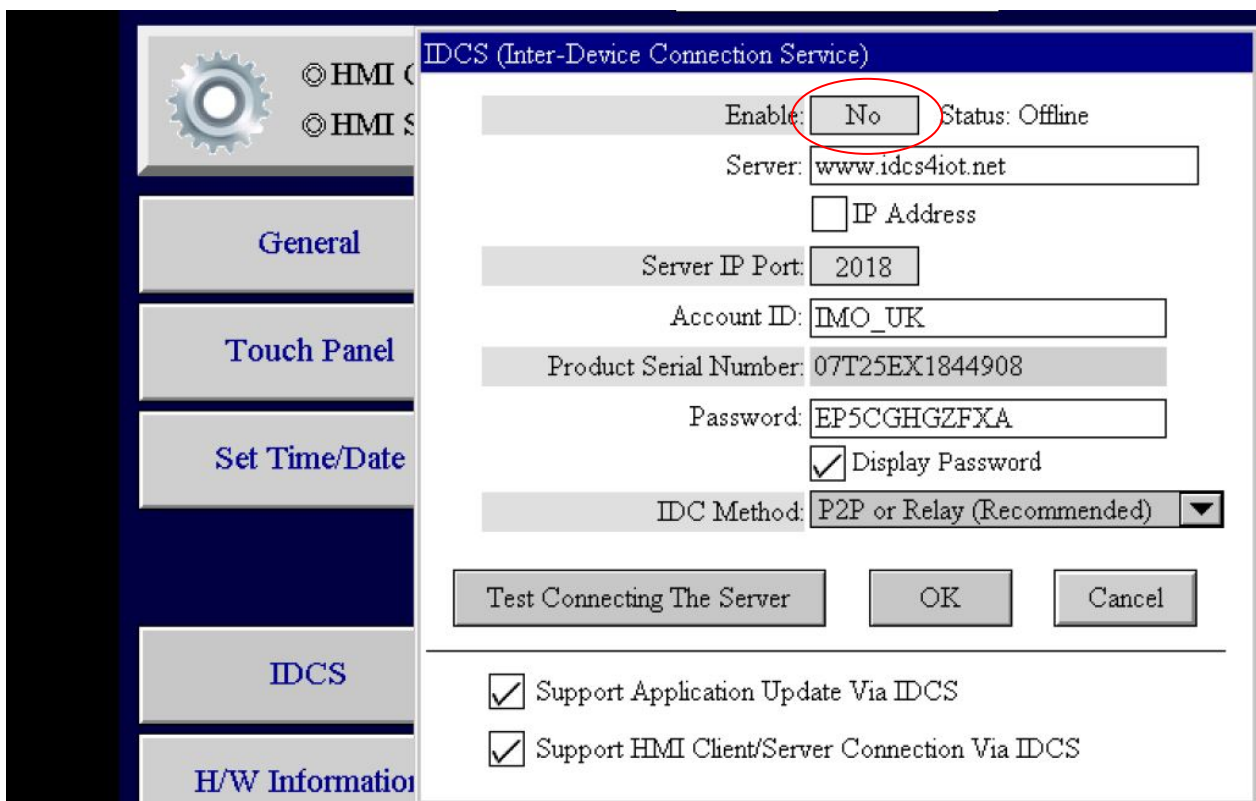

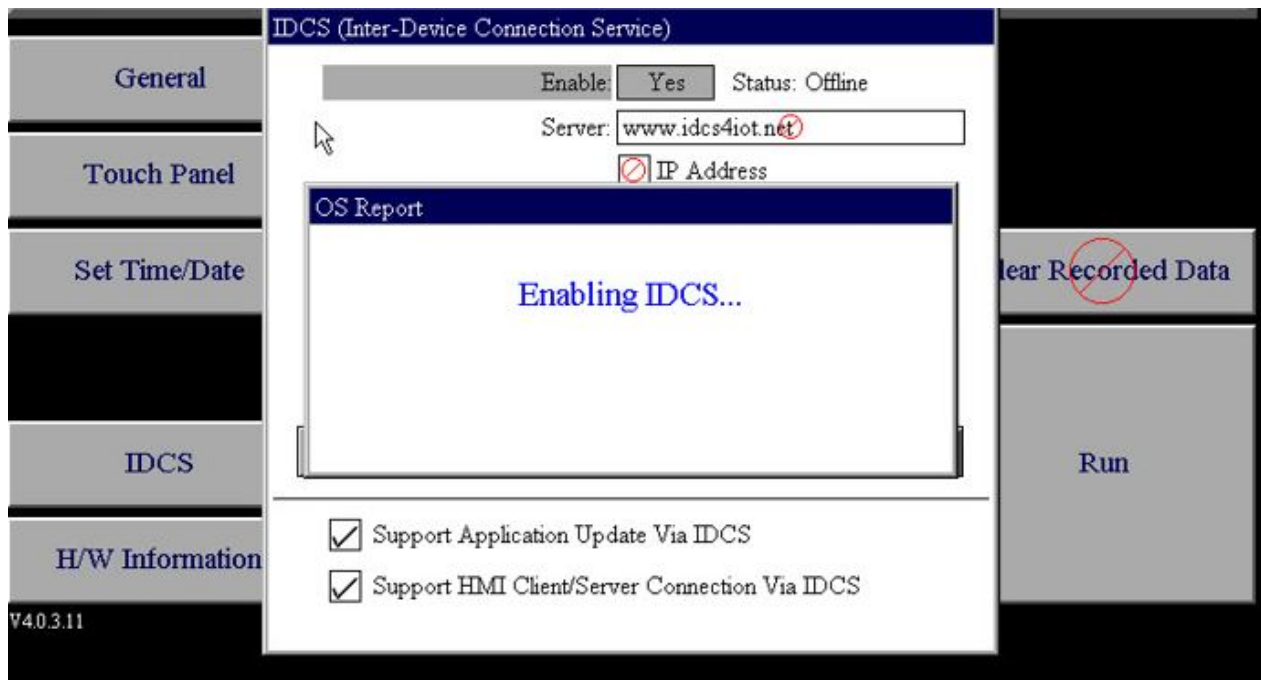

At first downloading, please download panel projects by USB port.

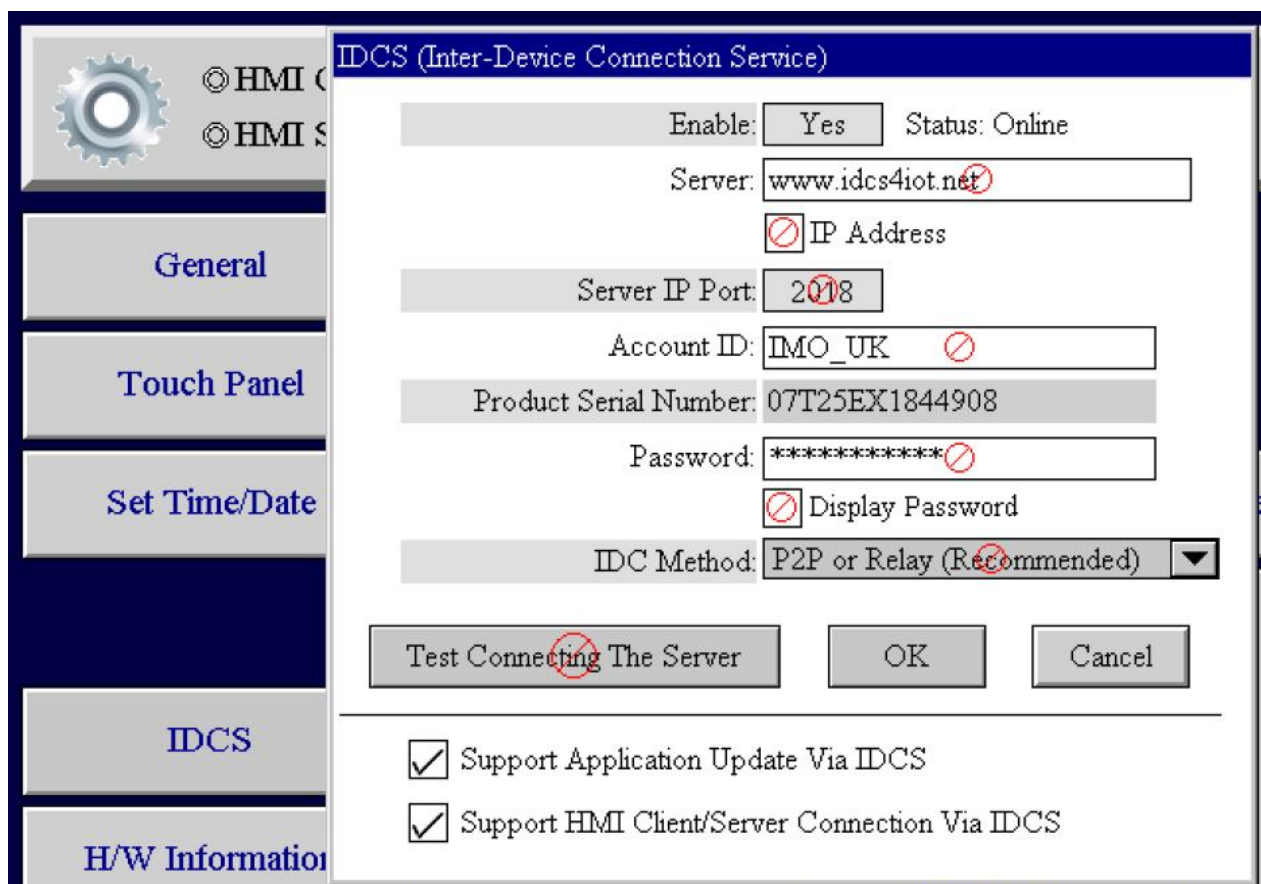

Finally step, please turn on the IDCS service on the PANEL SETUP screen as shown in the picture below

1. Set panel type to "HMI server" on the screen top.
2. Change IDCS status to "Yes" and click OK button, done. The IDCS service will be enabled on the panel.

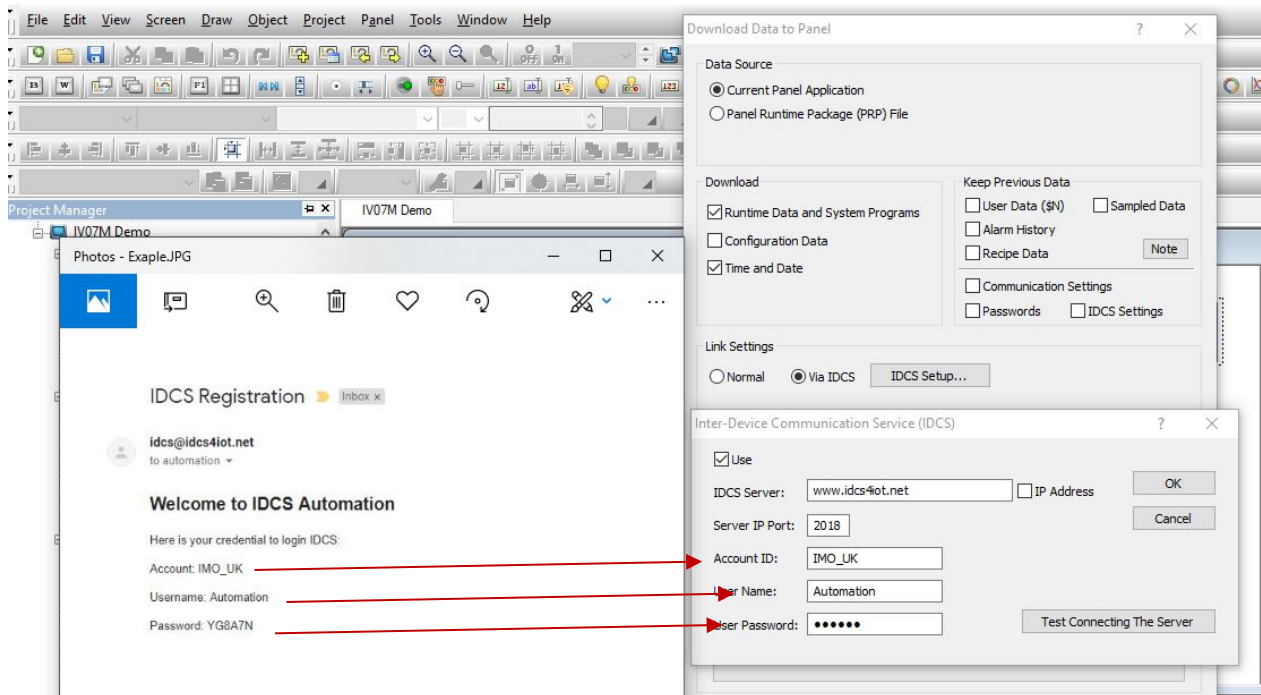

The service is already online.

If IDCS service is already enabled on the panel successfully, you will be able to update panel projects by IDCS at next time.
